Memorize: notes on the first three strings

1. Name each note out loud at a steady pace
2. Play each note as whole notes (counting four beats per note), then half notes (two beats), then as quarter notes (1 beat)
3. Begin with notes as whole notes, when the teacher calls out a new note value, switch on the very next note to that new note value
4. Begin with notes as whole notes, when the teacher says "skip," skip the very next note and continue on the following note.
